OBJECTIVE

Aspiring Flutter and Full Stack Developer seeking an internship to apply my skills in mobile and web development, contribute to real-world projects, and grow through hands-on experience in a dynamic tech environment.

EDUCATION

BSc (Hons) Computing   **February 2024 - Present**
Itahari International College
London Metropolitan University
Sundarharicha 04, Morang

+2 Science Stream   **August 2021 - May 2023**
Shree Sajeelal Secondary School
Sundarharaincha 04, Morang

SEE   **March 2020 - April 2021**
Shree Sajeelal Secondary School
Sundarharaincha 04, Morang

PROJECTS

Book Swap (Flutter/Dart, Django, SQLite) [GitHub]   **Sept 2024 - Mar 2025**
Developed "Book Swap" a book-swapping app where user can send and receive swap request and can swap the book with other users.

Hamro-Basti (Java, Servlets, MariaDB) [GitHub]   **Apr 2025 - May 2025**
Developed "Hamro-Basti" project, in which users/Citizens can report the issues which were in the society or community and authority tracks and resolves it.

BeamSmart: Adaptive Vehicle Headlight Control (IoT Project) [Drive]   **Jan 2023 - Feb 2023**
Developed "BeamSmart" an vehicle headlight system that enhances nighttime driving safety.

Wireless Charging Drone (IoT Project)   **Aug 2022 - Feb 2023**
Collaborated with a team to create a wireless charging drone using induction-based charge.

BRJ Furniture Inventory Management System (Python) [GitHub]   **2024**
Created a Python-based system for managing furniture inventory, handling orders, sales, and stock levels.

Java Store Management GUI Application (Java) [GitHub]   **2024**
Developed a Java application for store management, featuring user-friendly interfaces and error-handling mechanisms for secure data management.

Todo web based Application (Java) [GitHub]   **2025**
Developed a web-based Java application which stores user's todo and display, user can edit, update and delete the todos.

Contact Book Web App (Java) [GitHub]   **2025**
Developed contact book website which stores contacts from user which can be edited, updated, removed form the database.

Grocery Website: Product Page Frontend (HTML, CSS, JS) [Drive]   **2024**
I designed a user-friendly product page, inspired by Daraz and Mero Kirana, with clear categories and detailed information to ensure a seamless shopping experience.

Chrome Extension: Prevent Accidental Quit (HTML, CSS, JS) [GitHub]   **2025**
Developed Chrome extension which provides a warning prompt when the user attempts to close the Chrome browser window, helping to prevent accidental quitting.

SKILLS

- **Programming Languages:** Dart, Python, Java, JS
- **Web/App Development:** HTML/CSS, Django, Flutter, SQLite, MariaDB, MySQL
- **IoT:** Sensor integrations, Arduino, ESP-32
- **Tools:** Git/GitHub, VS-Code, Figma, Eclipse, IntelliJ IDEA, XAMPP, WAMP
- **Soft Skills:** Leadership, Problem-Solving, Time Management, Team Work

CERTIFICATIONS & EXTRACURRICULARS

- **Gold Medalist** | Young Scientist Summit   **2023**
- **Asia-Pacific Conference of Young Scientists** | Participate   **2023**
- **Leadership** | Grocery Store Front-End Project, Hamro-Basti Project
- **Volunteer** | Science Exhibitions   **2022 – 2023**
- **Build to Solve Program(KU)** | Participant   **2023**
- **Conducted Basic Cyber Security/Ethical Hacking Program** | Sajeelal Sec. School   **2025**
- **Circuit Designer** | IoT projects
- **Python Essential Training** | LinkedIn Learning   **2024**
- **Learning Java 11** | LinkedIn Learning   **2024**
- **Cloud Foundation** | AWS Academy   **2024**
- **Data Engineering** | AWS Academy   **2024**
- **Machine Learning for Natural Language Processing** | AWS Academy   **2024**
- **Machine Learning Foundations** | AWS Academy   **2024**
